***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

Claims 5-7 are allowed over prior art of record because the cited references either alone or combined do not disclose the claimed invention:

An on-vehicle DSRC apparatus employed for a dedicated short-range communication in an intelligent transport system, comprising:

a radio unit for performing communication with a non-road radio equipment installed at a location associated with a road;

a data processing unit for processing data received from said radio unit;

a battery for supplying an electric power to said radio unit and said data processing unit; and

a first power switch inserted in a power supply line extending between said battery on one hand and said radio unit and said data processing unit on the other hand,

wherein said first power switch is imparted with a function for effectuating a power save for control for the power supply from said battery so that electric energy of said battery can be saved,

said on-vehicle DSRC apparatus further comprising:

an electric field intensity detecting circuit for detecting a field intensity of radio wave transmitted from said on-road radio equipment; and

an activating circuit for activating said first power switch when a detection output of said electric field intensity detecting circuit becomes higher than a predetermined level inclusive thereof;

a second power switch inserted in a power supply line extending between said battery and said electric field intensity detecting circuit for controlling the power supply to said electric field intensity detecting circuit from said battery; and

a first timer for intermittently driving said second power-switch.

The underline limitations are critical since it shows the system of improvement. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne V. Lai whose telephone number is 571-272-2974. The examiner can normally be reached on 9:00 am to 6:30 pm, Monday to Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hofsass Jeffery can be reached on 571-272-2981. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
